

Data Centre Pest Control Solutions

Airpest®

The Experts in Pest Control

Protecting Critical Infrastructure. Ensuring Zero Downtime.

Who We Are

Airpest® provides specialized pest management solutions for data centres, server rooms, and critical IT infrastructure environments. Our approach ensures safe, precise, and non-disruptive pest control to protect sensitive equipment and maintain continuous operations.

Why Pest Control is Critical for Data Centres

Even minor pest activity can cause major operational risks.

Rodents
damaging cables
and insulation

Cockroach
infestation inside panels
and server rooms

Insects causing
short circuits
and system failure

Risk of contamination
in controlled
environments

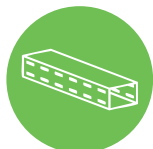

Downtime leading to
financial
and operational loss

Key Areas We Protect

Server Rooms
& Racks

Cable Trays &
Raised Flooring

Electrical Panels &
Control Rooms

UPS & Battery
Rooms

Perimeter & External Zones

Cooling Systems & HVAC Areas

Office & Support Areas

Our Pest Control Services

- 
Cockroach Control & General Disinfection
 Prevents infestation in electrical panels, control rooms, and hidden areas.
- 
Mosquito Control
 Mosquito Fogging, Mosquito Spray Treatment, Mosquito Larva Treatment.
- 
Rodent Control
 Prevents damage to cables, wiring, and critical infrastructure.
- 
Termite Control
 Protects wooden structures, interiors, and support areas.
- 
Drainage Spray Treatment
 Controls pest breeding in drainage and utility lines.
- 
Cold Fogging Treatment
 Disinfects non-sensitive areas and helps reduce flying insect activity.

How We Work

Why Data Centres Choose Airpest®

Non-disruptive, equipment-safe treatments

Minimal chemical exposure approach

Preventive and monitoring-based system

Professional reporting and documentation

Trained technicians for critical environments

Focus on uptime and operational safety

For inspections, preventive plans, or emergency pest control support — contact **Airpest®** today.
